

Luggage fees and other important reminders

- Do not pack important documents in your checked luggage. Always carry your **LOE, medical documents, licenses, and training certificates** with you.

- Contact the airline to learn about luggage restrictions, including: the allowed **number of bags, weight limitations,** and acceptable items that can be taken on board the flight.

- Make sure you carry enough cash or a major credit card to cover any potential luggage fees. Keep receipts to submit them for reimbursement. The Company will provide reimbursement for any baggage fees up to a maximum of the **first 30 Kilos**. The 30 kilos is inclusive of the allowance that is provided by the airline. Example: if the carrier provides a baggage allowance of **20 kilos, RCG** will cover fees for up to **10 additional kilos**.

- The Company will not reimburse for excess size or for a weight penalty, so pack carefully.

- Before leaving home, tag and mark your luggage properly. Place your contact information inside each piece of luggage. **Click here** to learn useful tips on how to minimize the risk of losing your checked luggage.
